

Idea Contest

The 3D reconstruction software **ReconstructMe** is well known for its ease to use and stunning 3D results. More than 700,000 downloads speak for themselves. The community constantly surprises with new applications for ReconstructMe. Now it is time for us to surprise the community with an idea contest.

www.reconstructme.net

Win a 3D Printer – The MakerBot Replicator 2

The best idea will be rewarded with a 3D-Printer (MakerBot Replicator 2). Places 2 and 3 will receive a free ReconstructMe PRO license. All prizes are being made available by VPTÖ.

What counts: Your Idea

We don't expect completed applications, what counts is the brightest idea, connecting ReconstructMe with the real world. Text, video footage, prototypes, or image material that conveys your idea is all we need.

Evaluation Criteria

Your idea will be rated based on the following criteria:

- Creativity of idea
- Progress in implementation
- Social, cultural or economic impact
- Quality of documentation

Rules for Participation

- Entitled to participate are all persons and academic institutes.
- Closing date is the 15th of June 2014.
- Send your material to info@reconstructme.net
- With your submission you will be taken to have agreed that we may promote your idea using the materials submitted or use it in any other way.
- Redress through the courts is excluded.
